

Phaesun PN-SMS 1 + 2

The Phaesun PN-SMS 1 and PN-SMS 2 are single module support structures with flexible tilt angles. They are built under high quality standards and designed for maximum durability and corrosion resistance in all environmental areas. These structures are made of aluminum and therefore very lightweight products. It is designed for the mounting of one solar module on the ground or at a wall. The package includes all the components (screws, etc.) for the assembly of the SMS structures. The PN-SMS 1 is designed for a range of 5 Watt up to 110 Watt modules. The PN-SMS 2 is designed for a range up to 150 Watt (max width 712mm).
