Camo: KR-0004-CM

The Kickr IV is a 6.0 W portable solar charger that can be taken literally anywhere. This foldable, compact 4 panel unit comes with a variety bands and grommets so you can attach your Kickr IV to nearly anything. Whether it be a backpack, a tent, or a mountain bike, you can take your Kickr IV anywhere you go. Use the Kickr IV to charge a device directly using the power of the sun at the same rate as a standard wall outlet. You can also charge an intermediary battery with your Kickr IV, and then when the sun isn't at your disposal, use that battery to charge your cell phone, camera, GPS, and more. The Kickr IV also comes in standard colors of black and multi-cam.

- Light | Less than a pound
- Flexible | Made with flexible CIGS solar
- Portable | Easily foldable
- Rugged | Made with plastic rather than glass
- Powerful | 6.5 watts of unregulated power
